***Allowable Subject Matter***

1. Claims 1- 15 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior arts fail to teach an apparatus for sensing the location of user input comprising: a display unit comprising: a screen having a resistive coating disposed on the surface; pre-existing internal signal generation means for providing a pre-existing signal emanating from the screen through the resistive coating; microprocessor sensor signal generating means for generating a sensor signal out of phase with respect to the pre-existing internal signal, the sensor signal generating means further configured to emanate the sensor signal from the resistive coating; a sensor array disposed about the screen; sensing electronics coupled to the sensor array; and the sensing electronics being configured to determine the location of user input on the screen by sensing localized deviations in the amplitude of the sensor signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
